

1st INTERNATIONAL CONGRESS OF PEDIATRIC ORTHOPEDICS **SEOP - SPOP**

June 5-7, 2025

SANTIAGO DE
COMPOSTELA

SCIENTIFIC PROGRAM

Dear colleagues,

It is our great pleasure to warmly welcome you to the **1st International Congress of Pediatric Orthopedics, jointly organized by the Spanish Society of Pediatric Orthopedics (SEOP) and the Portuguese Society of Pediatric Orthopedics (SPOP).**

This event, to be held from **June 5–7, 2025, in Santiago de Compostela**, marks a pivotal moment for our professional community. For the first time, we come together in a shared space for exchange, learning, and collaboration—one that we hope will contribute decisively to the advancement of Pediatric Orthopedics.

The Scientific Committee has prepared a high-level program featuring:

- **Keynote lectures** by renowned international experts
- **Interactive “Cross Fire” sessions**, designed to address controversial topics through dynamic debates
- **Hands-on workshops**, focused on advanced technical training and continuous professional development

The congress will also include **pre-selected scientific communication sessions**, showcasing the richness, diversity, and vitality of current research and practice in our specialty.

This event also represents a **milestone in Iberian collaboration**, strengthening the bond between SEOP and SPOP and consolidating a shared vision for the international advancement of our discipline.

The choice of **Santiago de Compostela** as our host city is no coincidence. Its deep history, spiritual heritage, and long-standing tradition as a meeting place and site for reflection inspire us to embark on this shared journey—guided by excellence, knowledge, and professional camaraderie.

We extend a **warm welcome** to this unique city and to a congress that will undoubtedly become a **landmark in the history of our specialty**.

We hope these days are **fruitful, stimulating, and unforgettable**, both academically and personally.

WELCOME TO THE 1ST INTERNATIONAL CONGRESS OF PEDIATRIC ORTHOPEDICS!
